Contents of Volume 250

Vol. 250 Nos. 1–4 **September 1, 2001**

A distribution function based bandwidth selection method for kernel quantile estimation
D. Faucher, P.F. Rasmussen and B. Bobée 1
A new procedure to estimate the RUSLE EI_{30} index, based on monthly rainfall data and applied to the Algarve region, Portugal
N. de Santos Loureiro and M. de Azevedo Coutinho 12
Empirical and conceptual modelling of the suspended sediment dynamics in a large tropical African river: the Upper Niger river basin
C. Picouet, B. Hingray and J.C. Olivry 19
FEUWAnet: a multi-box water level and lateral exchange model for riparian wetlands
M. Dall'O', W. Kluge and F. Bartels 40
The location of deep salinity sources in the Israeli Coastal aquifer
U. Shavit and A. Furman 63
Use of statistical analysis to formulate conceptual models of geochemical behavior: water chemical data from the Botucatu aquifer in São Paulo state, Brazil
S.X. Meng and J.B. Maynard 78
Modeling plot scale dye penetration by a diffusion limited aggregation (DLA) model
M. Persson, H. Yasuda, J. Albergel, R. Berndtsson, P. Zante, S. Nasri and P. Öhrström 98
Seasonal and event-scale variations in solute chemistry for four Sierra Nevada catchments
J.M. Holloway and R.A. Dahlgren 106
Steady state analysis of unsaturated flow above a shallow water-table aquifer drained by ditches
C. Kao, S. Bouarfa and D. Zimmer 122
Water budget and vertical conductance for Lowry (Sand Hill) Lake in north-central Florida, USA
L.H. Motz, G.D. Sousa and M.D. Annable 134
On modelling the effects of afforestation on acidification in heterogeneous catchments at different spatial and temporal scales
A.J. Wade, C. Neal, C. Soulsby, S.J. Langan and R.P. Smart 149
A continuum representation of fracture networks. Part I: Method and basic test cases
U. Svensson 170
A continuum representation of fracture networks. Part II: application to the Äspö Hard Rock laboratory
U. Svensson 187
Impact of imperfect rainfall knowledge on the efficiency and the parameters of watershed models
V. Andréassian, C. Perrin, C. Michel, I. Usart-Sanchez and J. Lavabre 206
Identification and explanation of continental differences in the variability of annual runoff
M.C. Peel, T.A. McMahon, B.L. Finlayson and F.G.R. Watson 224
